

Keep your Puppy Healthy for Less

PAWSITIVELY devoted to your best friend!

Why does your puppy need a HealthCare Plan?

Puppies require frequent veterinary care during their first year to ensure maximum health. Since they are highly susceptible to diseases due to an undeveloped immune system, it's important to vaccinate and deworm your puppy regularly to provide protection against dangerous diseases.

To ensure their development and growth is on track, frequent exams are recommended for a lifetime of good health! Our Puppy HealthCare Plans make it easy to manage these costs - providing budget friendly monthly payments and a *savings of over \$300!*

Puppy HealthCare Plan

Pediatric Comprehensive Physical Examination

Includes a 12 Body System exam including Skin/Hair, Eyes, Ears, Nose & Throat, Lymph Nodes, Dental/Mouth, Urogenital, Skeletal/Muscle, Lungs, Heart, Abdomen, and Nervous System.
